Crowd Pleasing Cookies

Your Favorites . . . Their Favorites!

Gone are the days of overly sweet, processed cookies, with trans fat. Cole & Parks cookies have set a new bar and have quickly become famous for their chewy, delicious flavor that are reminiscent of people's past. That's not a surprise to the founders of Cole & Parks. These cookies have been recipes in-the-making for over 30 years.

What's the secret? It begins with the unique recipes, but even those are improved by the ingredients Cole & Parks uses — some of which they have had developed for just Cole & Parks. When these high quality, pure ingredients are combined with the recipes, they make these cookies a melt-in-your-mouth experience. Custom blended, exclusively milled flour, proprietary blends of pure vanilla extract and imported cinnamon from Vietnam & Indonesia, contribute to making each cookie unforgettable.

From the first to the last, these cookies are satisfying. They are large in size and promise more than just a taste ... and that taste is protected as each cookie is individually wrapped and sealed for freshness.

What's your favorite? Which one is your friends, employees or those clients that mean so much to you? Doesn't matter, Cole & Parks has assembled their 12 most popular cookies into their "Famous Favorites" dozen so everyone gets their favorite and will love the others as well!

The cookies are carefully packaged in a smart red box, adorned with a signature foil seal and ribbon that includes your personal note. All in all, it's a beautiful presentation of your thoughtfulness ... *and sure to be one memorable and appreciated gift!*

Cole & Parks Takes Coffee Seriously

At Cole & Parks the promise is, "Way better coffee", and day-in and day-out their customers agree. When they set out to create an upscale, high quality brand, their selection of a coffee roaster was mission critical as coffee is a core product of their business.

Finding a highly experienced roasting partner with extensive global relationships and access to the best green coffee beans was a requirement. But even more important was finding a roaster who shared their philosophy — *coffee should never be over-roasted, and each bean, or blend of beans should be roasted to the precise*

level that optimizes its natural flavor. As a result, Cole & Parks coffees are distinctively different and exceptionally and naturally flavorful. With the entire array of fresh roasted coffees offered — you'll never experience a bitter taste produced from over-roasted beans, but rather the full natural flavor of perfectly roasted coffees from around the world.

And the story doesn't end there! Because air is a roasted bean's worst enemy, their coffees are packaged within minutes of being roasted, into airtight bags with valves that allow the beans to naturally "out gas" but not allow air to re-en-

ter. All of this attention to detail has paid dividends in customer's satisfaction ... in fact, it was their own customers who repeatedly said "This is *way* better coffee than where I used to go!"

Cole & Parks will package your choice of expertly roasted coffees in a handsome black gift box, wrapped with a smart silver ribbon and signature embossed seal. When it arrives, this presentation will say "quality" the minute they see it.

If you know someone that likes good coffee, you can't make a better choice for their gift!

Good Morning!

Day after day they'll think of you as they enjoy the things that remind them of all the great breakfasts they've ever had. And, if they've never had the treat of superbly roasted coffee or uniquely flavored quality tea along with a freshly baked extraordinary scone, covered with a wild berry preserve, a steaming bowl of steel-cut oatmeal or granola, they'll be even more impressed with your choice of gift.

The fundamental premise of Cole & Parks is quality. The founders have spent years and in some cases decades finding, testing, evaluating and developing an array of products that are among the highest quality available anywhere. The ground work that was done to find the most interesting coffees from around the world and their careful attention to roasting, spawned an assortment of coffees that rank among the very best available. The scones, preserves, granola and steel-cut oatmeal in these gift choices have passed the same Cole & Parks critical tests for zestful flavor and goodness. Every Cole & Parks product has been prepared with that same care for freshness and good taste. These are truly gourmet gifts that will be viewed as gifts that took a lot of thought on your part!

Both of these long lasting gifts are packaged in a bright sunburst design gift box and decorated with a signature Cole & Parks foil satin ribbon and seal. A personalized gift card is included and befits this top notch holiday or special remembrance gift — *a gift that will make many breakfasts, special!*

Heading the Heart with Tasty Combinations

This heart mindful gift box has your recipients' best interests at heart!

It is designed for those who are looking for foods that are low in fat, high in fiber and protein ... and still taste good. It's almost too good to be true, foods that are heart healthful and delicious, but that's exactly what you'll be sending with this gift box.

Imagine steel-cut oatmeal, or Cole & Parks granola that is an amazing combination of raisins, almonds, and cranberries, along with soy nuts, molasses, coconut and spices. And the cookies — high in energy, along with a box of Harney and Sons

Green Tea has been included for sipping ... while enjoying. Of course, your gift box is appropriately shipped in a fruit designed box and your card of personal wishes is included. *Every item says you care about them ... and the delicious side of life.*

Heart Healthy

Tea, Tea, and More Tea

Tea Time is no longer just at four o'clock and it's no longer accompanied by a lonely piece of toast ... not when you choose either of these two gift boxes centered on making tea time a special event.

Starting with the teas; they are Cole & Parks favorite English Breakfast Tea and, the most popular of all their teas, Cinnamon, a blend of black teas, three types of cinnamon, orange peel, and sweet cloves. Like mi'lady's perfume, it's remarkably assertive. The third tea of choice is Earl Grey, a blend of four teas from India and China. Now add cinnamon and blueberry scone mixes, honey, and red raspberry preserve and you're well on your way to a tea time that becomes an event. *Artfully packaged and sent with your sentiments!*

High Expectations Met!

From Cover.

The Best of the Best

Every Cole & Parks product has been thoroughly tested and refined to the highest taste expectations. With "The Best of the Best", Cole & Parks has assembled three collections featuring their most popular and signature products.

These gifts will surprise those on your list with their quality of the sophisticated coffees, the better than old-fashioned taste of cookies and the artisan chocolates that make up these gift boxes. Artisan chocolates may be a new expression, but what else would describe cherries infused with berry juices coated with chocolate or bits of roasted coffee beans inside a crunchy toffee wrapped in dark chocolate? Each is truly a work of art.

"The Best-of-the-Best" of Cole & Parks arrives in a stunning brushed-gold fern gift box, adorned with a rich foil ribbon and signature seal with a personalized gift card.
